Part-time work is a significant dimension of the labour market and an important form of employment for women. In Spring 2004, 44% of women in employment aged 16 and over worked part-time in Britain and women comprised 78% of all part-time workers (Hurrell, 2005). Previous research has shown that part-time jobs are

A part-time contract is a form of employment that carries fewer hours per week than a full-time job. They work in shifts. The shifts are often rotational. Workers are considered to be part-time if they commonly work fewer than 30 hours per week. According to the International Labour Organization, the number of part-time workers has increased from one-fourth to a half in the past 20 years in most developed countries, excluding the United States. There are many reasons for working part-time, inclu
