Protecting Our Planet Redesigning Land-Use and Business Practices 25 Years of Impacts. Since its founding 25 years ago, the Rainforest Alliance has pioneered a comprehensive transformation across the industries that most impact our environment—farming, forestry and tourism—and successfully engaged the support of consumers around the world to protect the forests and ecosystems that are ...

Protecting Our Planet - Rainforest Alliance

Since 1987, the Rainforest Alliance has worked to build a global alliance of people who share our vision of strong forests and thriving communities. Today, we work with rural communities in 76 countries around the world to conserve forests, support sustainable livelihoods, and restore balance to the planet we call home.

Impact Dashboard | Rainforest Alliance

Rainforest Exploitation. Papua New Guinea (PNG) possesses one of the planet's largest remaining tropical rainforest. At least seventy-five percent of its original forest cover is still standing, occupying vast, biologically rich tracts over 100,000 square miles in all.

Tropical Rainforest Case Study - geography fieldwork

The rain forests are the most biologically diverse areas on the planet. Biologists from all over the world have made careers out of studying the different types of animals that call the rain forest home. But, there's still work to be done! Each day new species of insects, butterflies, and other animals are "discovered" by scientists. The same is true with the plants of the rain forest ...
